

Seven Knock Out® Roses Add Star Appeal to Your Garden

Ever stroll by a home or drive by buildings decorated with breathtaking color splashed across the landscape, wishing you had a “green thumb?” Psst...you do. You probably saw a Knock Out® Rose.

That’s right. Roses. But these aren’t your old-fashioned, fussy high-maintenance Hybrid Tea roses. These are easy to grow, low-maintenance Knock Out® roses that anyone can grow. The entire Knock Out® Family of Roses are a dream come true for those who want year round color without a lot of work.

“If you can grow grass — even weeds — you can grow Knock Out shrub roses,” assures Steve Hutton, president of The Conard Pyle Co. who introduced all of The Knock Out® Family of Roses and hundreds of other award winning roses.

Upon its introduction, All-American Rose Selections (AARS) hailed The Knock Out® Rose as a “breakthrough shrub rose,” The Knock Out® Family of Roses has *revolutionized* the way we garden with roses.

“What makes these roses so extraordinary is that anyone can grow them anywhere in the country — from Minnesota to Florida,” explains Hutton.

Since its introduction, The Knock Out® Rose (a 2000 AARS winner) continues to gather awards and accolades for its abundance of non-stop gorgeous blooms and remarkable ease of care in all climates throughout America. The same rigorous standards for disease resistance, adaptability to varying soil conditions and temperatures, and non-stop lustrous blooms have been bred into The Knock Out® Family of Roses.

“All of our Knock Out Roses have been bred to be highly disease resistant, especially against black spot, and they require no pruning, deadheading or winter protection,” says Hutton. They all are eco-friendly and they require no chemical spraying and are extremely drought resistant so they are perfect in hot dry parts of the country. They prefer a rich organic soil and a good watering to get them started. After that, Hutton says you can “just leave them alone to do their thing – bloom their hearts out from spring until the first hard frost.”

The Knock Out® Family of Roses has seven members with different colors and blooms that suit every garden and landscaping need. From upright shrubs in containers, covering a hard to reach hillside, forming a colorful hedge or adding a focal point in your garden, these beauties will perform every time.

Contain Yourself with The Knock Out® Rose

This is **the** shrub rose that started a revolution. Nothing says “elegance” like the The Knock Out® Rose. Large clusters of rich fluorescent cherry-red blooms provide delight from spring until the frost of fall. Since it forms a compact shrub, it is ideally suited for hedges or in the landscape with annuals and perennials. Small

spaces? No problem.

This beauty brings understated sophistication to any deck, porch, or entry way container.

A Rainbow of Delights

The Rainbow Knock Out® Rose, a lovely AARS winner, offers a profusion of delightful coral pink blooms painted with rich yellow at the base. More compact than other members, The Rainbow Knock Out® Rose offers dramatic color into late fall. Try planting in large groups to create a sweeping informal hedge, making a dramatic statement.

Blushing Bride

The Blushing Knock Out® Rose is a lighter colored “offspring” of The Knock Out® Rose with delicate blooms that hint of a blushed light pink that quickly changes into a soft shell pink. Lovely around empty spaces, irregular landscape, and hugging close to home, these blushing blooms will provide beautiful color, without any maintenance, every day throughout the summer.

Pretty in Pink

The Pink Knock Out® Rose is a glorious shade of pink that complements any color scheme. It thrives in humid conditions where most other plants require spray and maintenance. This non-stop bloomer is the perfect companion to other flowering shrubs, roses and perennials. Dress up your entryway with this beauty and adorn your tables with mounds of romantic cut flowers straight from your garden.

Double Delight

A sister of The Knock Out® Rose, The Double Knock Out® Rose is truly a “rose lover’s rose” with features similar to a classic red rose. The fully double flower is slightly more winter hardy than her famous sister. Feature her throughout your landscape- bordering a fence, mix in a perennial bed, pair with the Knock Out Rose, or stand alone for a classic, regal pose.

Pink Profusion

The Pink Double Knock Out® Rose offers double flowers in a cheerful bubble gum pink. Unfazed by heat, this hardy shrub rose has delicate pink blossoms with an ethereal grace that beckons a second-look. Mix these beauties in perennial beds, along garden paths, tucked-away settees, or in any spot you wish to add a splash of joyful color.

Let the Sun Shine

The newest member of The Knock Out® Rose family, The Sunny Knock Out® Rose, has fragrant blooms of cheerful yellow, surrounded by dark, attractive foliage. The wispy, delicate blooms add graceful charm to any

landscape. Splash this happy color throughout your landscape: mix with annuals and perennials in borders and hedges for a visual treat.

Not just for seasoned gardeners, The Knock Out® Family of Roses is the carefree 'rose du jour' - and sure to be a winner for everyone!
