GREAT GIFTS IDEAS FOR GARDENERS

GIVE "GARDEN JEWELRY" FOR CHRISTMAS

Looking for that perfect, lasting gift for the garden lover? Look no further than Campania garden accessories at your local fine garden center. Campania's beautiful collection of planters, statuary and garden ornaments will decorate and enhance any home or garden.

Campania offers a wide variety of garden "jewelry" in cast stone, polyethylene and terra cotta. The garden ornaments are made to look like antique weathered sculpture, which help recreate the often-admired "secret" garden.

From the vast selection of ornaments, choose planters, birdbaths, benches or statuary. Among the statuary are cherubs and a variety of animals, including squirrels, frogs, pigs, cats and dogs. There is surely something for every gardener on your list.

"A wonderful holiday gift is a statue of Saint Fiacre, the patron saint of gardening," says Michael Petrie, manager of Styer's Nursery in Concord, PA. "Think in terms of packaging garden products." For example, a small "Dancing Angel" planter can be decorated with Narcissus bulbs, poinsettias and ivy for an indoor holiday

garden. Or similar items can be wrapped up together -- a birdbath, birdfeeder and bird food make a wonderful gift. Or for the perfect hostess gift, try a cluster of angels with a beautiful gold ribbon.

Campania offers a fine selection of polyethylene planters which are virtually indistinguishable from the best of the genuine article -- fine Italian terra cotta. Lightweight, durable, environmentally friendly, u.v. and temperature resistant, these planters have become "New Classics" in home and garden design.

Campania also offers a comprehensive selection of imported Italian terra cotta planters produced in Tuscany, Italy, which has been the center of ornamental terra cotta production since the Renaissance. Hand finished, these planters are world renowned for their classic design, quality of detail, and the distinctive rose-peach color of fired clay. These are the finest terra cotta pots available today.

Campania products are available at fine garden centers. For more information, call visit at www.campaniainternational.com.
